Seamless & Secure Digitised Document Workflows

Enhance Your RICOH Multifunction Printers
With RICOH Smart Integration

Maximise the Efficiency of Your Hybrid Workplace

RICOH Smart Integration (RSI) helps organisations extend the functionality of their RICOH multifunction printers (MFPs) with effortless and secure document workflows that boost productivity and efficiency. Streamline processes and enhance security through a unified cloud-based ecosystem that integrates into your technology stack and hybrid workplace practices. Make your devices work smarter, not harder.

Anytime, Anywhere, Any Device Flexibility

Empower your team with true flexibility—from seamless integration with your print devices to effortless scan retrieval, without compromising data security and efficiency. Send a print request from your device on the go and pick it up at the RICOH MFP closest to you. Convert documents into editable formats at point of scan to boost efficiency and productivity. Monitor and track print usage to uncover optimisation opportunities and better ways of working.

Discover how RSI can help your organisation get more out of your RICOH MFPs without needing complicated software or special drivers.

RSI Connectors

Print, scan, and save at the touch of a button on your RICOH MFP with the RSI Connectors. Featuring the broadest integration with cloud services, your team can scan, save, and digitise documents into into editable formats(Excel spreadsheets, Word documents or PDF) to cloud services such as OneDrive for Business, SharePoint, Google Drive, Dropbox, and more. You can also send a print request and retrieve your document from the designated RICOH MFP— secured with Access Control.

Benefits

- **Increase efficiency** by automating time-consuming manual workflows
- **Digitise documents** at point of scan with OCR and convert them into editable searchable formats
- **Scan and save** to cloud platforms or personal/shared folders easily
- **Print** from anywhere **and collect** from your nearest MFP

61%
of businesses surveyed reported **print-related data loss** in **2023.**

Print Industry Trends 2024, Quocirca

RSI Control and Control+

Take charge of your RICOH MFPs on a single platform that makes cloud print device management effortless. Monitor usage through a centralised easy-to-use interface. Authenticate to release print jobs only when the user is at the RICOH MFP, ensuring security and data privacy. Identify measures for cost control and resource management with job log reporting that allows you to make informed decisions regarding print policies. Give your employees the tools they need to achieve peak productivity and efficiency.

Benefits

- **Remove print servers and desktop clients** from your print infrastructure—decreasing burden on IT
- **Increase accountability** with authentication
- Simplify **device management** and **control costs** with job log reporting and monitoring
- **Start print job** only when physically present to prevent data leaks and protect document privacy
- **Scan, convert, and save** your document into editable and searchable formats
- More flexibility with ability to **print from mobile devices**
